30 STORYBOARD PROMPTS

Copy-paste prompts that turn any idea into a ready-to-shoot video storyboard - for every genre

Paste one into Claude or ChatGPT. Replace the [BRACKETS]
with your topic. It hands you a full scene-by-scene storyboard
you can send straight to your AI video tool.

From Bambi - The AI Life Upgrade

How to use these (30 seconds)

1. Pick a prompt that fits your video

They are grouped by genre - story, ads, education, faceless, entertainment, cinematic. Pick the vibe you want.

2. Replace every [BRACKET]

The brackets are where your topic, product, or theme goes. Specific in = specific out.

3. Paste it into Claude or ChatGPT

It returns a full storyboard: the visual, mood, on-screen text and voiceover for each scene.

4. Send the scenes to your video tool

Turn each scene into a clip (DaVinci AI, Higgsfield, Canva), add the voiceover, assemble in CapCut. Done.
